

MENTORSHIP PROGRAM

FUSE

"Always two there are, no more, no less. A master and an apprentice." - Yoda

WELCOME TO FUSE A NOTE FROM YOUR EXECUTIVES

It is our pleasure to welcome you to St. Lawrence College and to the FUSE mentorship program. We hope that your orientation week is as memorable as ours was – full of awkward moments, happy triumphs and the sparks of lifelong friendships. Andrea and I are very excited to be acting as your co-executives for FUSE this year. We have plenty of things in store for you! We have selected a group of mentors who are there to guide you through your first year of college. All the mentors are supportive, understanding and helpful people and are very excited to show you all what they have to offer.

Andrea and I were strangers when we were assigned our mentor. We had no idea how much our mentor, Megan, would help shape our first year here. Megan provided us with insider points about teachers, tips on assignments and how to deal with stress, but most importantly she became a great friend.

FUSE provided us with the opportunity to build our confidence, establish a network of colleagues and professionals, and opened doors to new insights on things we might have missed if we didn't have a mentor to guide us through the good and the bad parts of our college experience. Andrea and I loved having a mentor so much that we felt inspired to take over FUSE.

We wanted the chance to give future students the awesome experience we had. We've worked long and hard on this year's program and hope that you all take advantage of what we have to offer not only for your first year, but for your second and third as well. Nothing would make us happier than to see each of you stay with us.

See you soon!
Andrea & Emm, FUSE Executives

"Fuse was, without exaggeration, a turning point in my college career. As a direct result of being involved in the program, I was able to gain practical working experience industry insight, an internship, and full time summer employment within an active marketing communications agency.

"This program is a living example of SLC's ability to afford students with outside-the-classroom learning opportunities, creating long-term benefits and opening doors for future employment. Fuse is an embodiment of St. Lawrence College's 'live it' mantra."
